## **Valued DJI Arizona Consumer, Innovative UAS Enterprise Customers,**

*Since 2014, our small start-up tech business has experienced significant growth and development while serving as your chosen UAS Consumer and Enterprise “Value Added Reseller” (VAR). The success achieved is directly attributable to a forward leaning vision into emerging technologies, strategic investments, acquired industry knowledge, tenacious business opportunities, and most importantly, its meaningful relationships with hobbyists and professionals like you!*

*As we look to the future and consider how to provide effective long-term solutions, we recognize it will involve enhancing our industry partnerships and further diversification of manufacturer adoptions.*

*To that end, our tenure of recognized success serving each of you, has resulted in a distinct opportunity to join [Gresco Technology Solutions](#) (GTS), a [Gresco Utility Supply, Inc.](#) brand. We are humbled and excited to embark on this new journey! On April 13, 2022, **Innovative UAS** will immediately begin the transition process of migrating to [GTS](#) and dissolving **Innovative UAS** and **DJI Arizona** as entities.*

***DJI Arizona will be closing its doors*** and we will no longer be serving hobbyists by selling consumer grade drones. We thank all of you for your loyal business and wish you the best!

***Our Enterprise customers*** are invited to join us and experience the benefits of expanded product offerings, services, and training. Despite the constant challenges posed by the industry, this new endeavor ensures our ability to deliver you long-term program success and even more “**INNOVATIVE UAS**” solutions!

*To keep you informed on pertinent transition dates and continued relationship opportunities, we have included an **attachment** to this announcement for your review.*

*Since 1960, [Gresco](#) has served the electrical supply needs of scores of utility customers in the Southeast region by providing products and services they need to build and maintain power systems. To date, they’ve expanded their geographical reach with a network of strategically located warehouses and evolved their product offerings to bring world-class products and services to customers in new and emerging markets throughout the US. [The Gresco Technology Solutions brand](#) was initiated in 2013 to further the company’s mission of offering advanced unmanned technology solutions and services to its customers. Since its inception, GTS has earned a reputation as a leader in providing comprehensive solutions to those serving on the front lines of communities across our nation within the public safety, electric utility, transportation, and commercial-industrial sectors.*

**Fraternally Yours,**

Ali Ahmed  
President, Co-Founder

Micah Slezak
